STIMULUS PACKAGE TO IMPACT GREEN BUILDING IN LOCAL COMMUNITIES

GREENWICH, CT -- The Fairchester Green Building Council (FGBC) will be presenting a panel of experts to discuss government rebates for green building and the potential impact of the American Recovery & Reinvestment Act of 2009 on the local region. The presentation and networking event will be held at 5 p.m. on March 19th at The Hyatt Regency in Old Greenwich. Cost is \$5 for FGBC members and \$20 for non-members. However, there is no charge for new members who sign up in the week leading up to the event. To register, visit www.FairchesterGBC.org. Tickets may also be purchased at the door.

The mission of the FGBC is to make sustainable real estate increasingly mainstream by creating a local green building community which can identify and share proven, cost effective local solutions to encourage increased implementation and help green businesses to grow. This newly formed non-profit focuses on Fairfield and Westchester Counties and held its inaugural meeting in January, 2009 with over 100 members and interested non-members attending.

The FGBC will be launching events to inform and educate real estate professionals on improving the sustainability of their buildings and has plans to share expertise from a professional membership with the public in the pursuit of local sustainable solutions that are both beneficial to the environment and cost-effective.
